

Prüfungsleistungen

Max Koch, Tamino Steinert

Pitch

- Date: 17.06.2026
- **Not graded**, but important for feedback
- Present both of your project ideas from assignment 10
- **At least two slides per project idea**
 - Brief introduction
 - Problem formulation
 - Proposed solution
 - Expected results or insights
- **~ 5 minutes** per project idea

Presentation

- Date: 08.07.2026
- **20-minute presentation** about your project
 - Introduction
 - Problem formulation
 - Implemented solution
 - Results
 - Make it engaging! 
- Your project **does not have to be 100% finished** yet, but you should have a working prototype and results to show

Project Report

- Final submission, **due 27.07.2026**
- Written with **Sphinx**, sources and implementations hosted in your git repository
- Covers everything you did during the semester:
 - The weekly tasks
 - **The group-specific component**
- Keep it to the point!

Group-Specific Component

- Not just documentation, but a **self-contained report** on your project:
 - Introduction
 - Problem formulation
 - Implemented solution
 - Results and insights
- Descriptions should be detailed, but also concise and clear
- Use **good language** and aim for a **nice reading flow**
 - Similar to a blog post
